OUR MISSION

Teach spiritual principles, spiritual tools and practices.

Provide a spiritual home that offers an opportunity for all to participate and share their unique gifts. Partner with other organizations to create solutions and contribute to the health and well-being of our community.

Provide facilities and an environment that supports our vision.

Dear Ones,

We are now in the time of Thankfulness for all the blessings that we have harvested this year. We continue to live in a fast-paced world and frequently, gratitude for our blessings may be overlooked. The harvest itself may be overlooked.

It is our responsibility to celebrate our blessings and the harvest of crops and other plants that sustain human life. Like fresh cut grass there are delightful smells when crops are harvested or cut and this can be a delight for the senses.

Harvest time also represents change in the seasons of the calendar. And here in Southern California many of us have orange, lemon, or avocado trees which are harvested during this fall season.

So now we look to Source with gratitude for the opportunity to harvest. Generosity and abundance being traits of the One then we share with joy! And we are reminded of the workers who most often do the physical labor of the harvest. For the work of their hands, we give thanks. We eagerly share the abundance, and we are grateful for the presence of a loving Spirit in our lives in the here and now.

Sending Thanks and Love for the Harvest!

Rev. Irma
