Taking Care...

How do I take care of a whole planet?

I become aware of the ecology of the planet through education. I teach and share what I know about the planet. I treat the planet the way I want to be treated by the planet.

There is One God this God is Good. I see this God everywhere I look. I hear this God in the songs of the birds and the barking of the dogs. I feel this God in the very air around me and the air I breathe into my lungs.

I am one with the One. If it is true that there is only One then it must be true that I am a part of that One.

I take care of the planet by first taking care of me. In a World that Works for Everyone that World has to work for me, and it does. I may chose to pick up a piece of trash and put it in a receptacle. I chose to conserve water, air and petroleum products by using them wisely. My wise use of our planets resources helps to provide for future generations.

I give great thanks to a Good God that continues to bless and caress me with love and affection. I know that by the words in this treatment good comes to me easily, effortlessly and often. I appreciate my intimate relationship with God in all that I think, say and do.

I release this Treatment
by saying And So It Is.

*Love in Light,
Reverend George*
